BIMTECH

ABOUT US
WHO WE ARE

BIMTech was founded in 2015 by three university colleagues: an architect, a civil engineer, and a software engineer.
Since then, we have launched dozens of tools used by **over 30,000 professionals and utilized more than a million times.**

WHAT IS OUR VISION?
CREATE ONE TOOL FOR ALL

Architects and civil engineers need a comprehensive tool, containing different products for any possible assessment.

- **ONLY ONE ADD-ON FOR ALL MANUFACTURERS**
- **ONLY ONE ADD-ON FOR ALL DESIGN SOFTWARE**
- **ONLY ONE ADD-ON FOR ALL ASSESSMENTS**

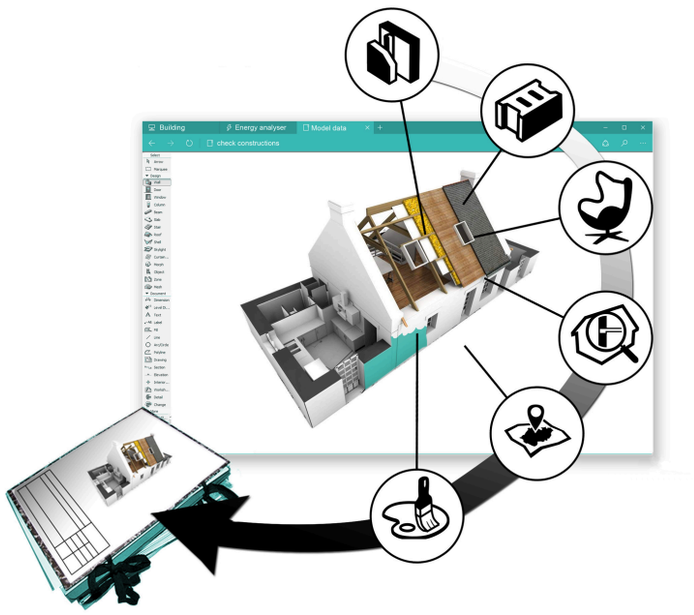

BIMTECH TOOLS
KEY FEATURES OF OUR TOOL

- **INTEGRATED BUILDINGS PHYSICS CALCULATIONS**
- **GEO SERVICES**
- **CLIMATE DATA**

The synergy of structural design, GEO data, and climatic conditions significantly speeds up the entire design process.

Our add-on is **available for 8 major design software applications**, e.g. ArchiCAD, Revit, AutoCAD, Allplan. You can dowlnoad it in **Free or PRO versions.**

Download add-on

ARCHITECTS, CIVIL ENGINEERS
ACCELERATE YOUR WORK

Use calculations like condensation calculations, heat transfer, thermal bridges, radon insulation, screed thickness, ETICS anchoring.

In European region, select from

- 3032 building materials
- 170 parametric objects
- 825 sandwich constructions
- 652 color charts
- 4657 construction details

MANUFACTURERS
SHOW YOUR BRAND

- **Low cost.** Investing in BIM solutions is cheaper than advertising in mass media.
- **Tailored solutions.** We respect your needs and budget. We can efficiently create web applications or CAD programs addons.
