RESEARCH & INDUSTRY PARTNERSHIP OPPORTUNITY

Livestock microbiome innovation for One Health

Greenagro seeks European research and industrial partners to translate microbiome science into credible, practical solutions for healthier and more sustainable livestock systems.

2027 CLUSTER 6 TOPIC

HORIZON-CL6-2027-02-FARM2FORK-03

Microbiome for terrestrial livestock sustainability and health within a One Health approach

WHY GREENAGRO

Greenagro is a North Macedonian SME active in animal nutrition, functional feed solutions and applied agricultural education. We bring market-facing experience with probiotic products, knowledge of practical farm needs and a commitment to scientifically rigorous collaboration.

WHAT WE CAN CONTRIBUTE

- **Industrial perspective**
  Probiotic applications, feed formulations and product practicality.
- **Applied validation input**
  Farm-relevant indicators, feasibility and implementation conditions.
- **Stakeholder engagement**
  Farmer outreach and technical dissemination through our Educational Centre.
- **Market uptake**
  Commercial pathways, adoption barriers and exploitation planning.

PARTNERS WE ARE SEEKING

- **Microbiome researchers**
  Microbial ecology, multi-omics, metagenomics and bioinformatics.
- **Veterinary & nutrition experts**
  Controlled livestock intervention studies and welfare assessment.
- **Farm & One Health partners**
  Livestock sites, antimicrobial stewardship and environmental indicators.
- **Experienced coordinators**
  Horizon Europe RIA leadership and research data integration.

COLLABORATION GOAL

Co-develop and assess microbiome-targeted interventions in real livestock contexts, generating robust evidence for animal health, antimicrobial stewardship, animal welfare and environmental sustainability.

Let us explore a consortium together.
