Quantum INDEX

powered by RESONANCE HorizonX

The global benchmark for enterprise quantum readiness.

Independent, data-driven and read by the executives who decide your sector's quantum narrative.

FEATURED IN

Quantum INDEX

powered by RESONANCE HorizonX

You're already being ranked on quantum. Just not by you.

Boards, regulators, analysts, and journalists are already scoring your company's quantum position, from patents, press, LinkedIn, PoC leaks, and public partnerships.

The narrative is being written without you in the room.

200+

enterprises already tracked deploying quantum PoCs, pilots, and partnerships.

$1T+

projected value from quantum computing across industries by end-of-decade.

1 question

every board is asking the CIO:
"What is our quantum position?"

Quantum INDEX

powered by RESONANCE HorizonX

Quantum is being discussed in the boardroom. The next 12 months set the leader table.

Three forces are compressing the timeline: regulators, capital, and talent are all pricing your position in **now**, not at commercial-scale hardware.

2025

UN Year of Quantum

Put quantum on every G20 government's agenda. TQI was strategic partner.

2026

Analysts are taking notice

McKinsey's Quantum Technology Monitor names leaders and laggards by sector — using open-source data alone.

Q3 2026 CLOSING

Next refresh: finance index

Founding participant window locks the base ranking. Data intake closes ahead of publication.

Regulatory pressure. UK, Canada, Denmark, Saudi & multiple US states have national quantum strategies citing TQI data.

Capital pressure. $1T+ in projected value is making international stakeholders focus

Positioning pressure. Once the leader table is published, moving up is 3× harder than getting in early.

Quantum INDEX

powered by RESONANCE HorizonX

Your public score already exists built from what we can find, not what you've built.

WITHOUT YOUR INPUT

Ranked on open-source signals only.

- Only papers, patents, press, and public partnerships count.
- Internal PoCs, unannounced vendors, quiet talent hires: **invisible.**
- Your position is defined by **what we can find**, not by what you've built.

WITH YOUR PARTICIPATION

Ranked on the full picture.

- Structured intake of your workforce, R&D, and adoption evidence, under NDA.
- Editorially independent: participation doesn't buy rank, but it **completes the picture.**
- The story is told to the market and inside your own organization.
- Structured intel to share with your management team.

Quantum INDEX

powered by RESONANCE HorizonX

The first comprehensive index of enterprise quantum innovation.

Every ranked company is scored across three pillars: the same intelligence base Fortune 500s, governments, and investors already use.

PILLAR 01

Workforce

Quantum team, senior leadership, hiring velocity, university and lab partnerships.

Sample metrics: senior quantum FTEs, PhD density, chair holders.

PILLAR 02

R&D

Peer-reviewed research output, patent filings, benchmark results, algorithmic contributions.

Sample metrics: patents, citations, benchmark wins.

PILLAR 03

Adoption

PoCs, vendor partnerships, ecosystem engagement, customer-facing use-cases.

Sample metrics: live PoCs, vendor breadth, executive positioning.

Quantum INDEX

powered by RESONANCE HorizonX

WHY IT MATTERS

A top ranking does more than market you. It funds the next phase and defends the program.

Every innovation dollar is now weighed against other investments, for example into AI.

An independent, widely cited ranking gives whoever runs quantum the evidence to defend the budget, the headcount, and the program's place on the board's agenda.

SECURE THE BUDGET

Evidence for planning season.

An independent top ranking is the kind of proof CFOs and boards already act on. It reframes quantum spend from a cost line to a competitive position going into the next cycle.

WIN THE AI COMPARISON

Stay visible when AI dominates.

As AI absorbs the innovation agenda, a benchmark cited by McKinsey, Forbes, and national strategies keeps quantum on the board's radar as a strategic priority, not a science project.

PROTECT THE PROGRAM

Support for your team

A public leadership position gives your CIO third-party validation to point to. It helps defend headcount, justify vendor spend, and recruit scarce talent.

Quantum INDEX

Cited where quantum strategy is actually decided.

FLAGSHIP CITATION: #1 MOST-READ MCKINSEY REPORT, Q2 2026

McKinsey Quantum Technology Monitor 2026, data-driven benchmark.

"The report leverages The Quantum Index as its data-driven benchmark to measure progress in this global race." Regional readiness breakdowns for Europe, North America & Asia drawn directly from QII data.

CORPORATE-EMBEDDED

E.ON's live corporate page permanently references QII.

A DAX 40 utility embedded QII in its **public technology narrative** across 3 official channels: English & German press releases plus corporate site.

Morning Brew

4.2M subs: 75% read-through

Named QII as the benchmark for "quantum readiness" of the Top 5 finance firms in HSBC bond-trading coverage.

MORNING BREW

Network World (IDG)

1M+ enterprise IT readers

"9 Steps to Prepare for a Quantum Future" cited QII rankings for automotive (BMW, VW, Toyota) and finance.

IDG International Data Group

Forbes (Digital Assets)

Jan 26, 2026 Davos wrap

Quoted HorizonX CEO Steve Suarez, QII co-founder — on the post-quantum migration ahead. See next slide.

Forbes

Government & policy

National quantum strategies

TQI research informs national quantum strategies in the UK, Canada, Denmark, Saudi Arabia, and multiple US states.

Quantum INDEX

powered by RESONANCE HorizonX

Independent media are picking up the work from tier-1 US media to national newspapers.

A sample of independent, organic citations from the past 18 months. Each is editorial recognition — not sponsorship.

Forbes — FEATURED

JANUARY 26, 2026

"Davos Decoded: Ten Tech Truths Shaking Up 2026"

Sandy Carter: Forbes Digital Assets

Forbes' Davos wrap quotes **Steve Suarez, CEO of HorizonX,** Quantum Index co-founder, on the coming post-quantum cryptography migration, calling it *"the largest software upgrade in history."*

Independent media recognition of the Index's leadership voice — not a formal endorsement of the ranking itself.

McKinsey & Company

Quantum Technology Monitor 2026, Apr 2026

"Report leverages The Quantum Index as its data-driven benchmark to measure progress in this global race."

Morning Brew

Business Newsletter, Sep 2025

Named QII editorially as the benchmark for "quantum readiness" of HSBC, JPMorgan, Goldman, Wells Fargo, Citi.

NetworkWorld

IDG / Foundry, Apr 2025

"9 Steps to Prepare for a Quantum Future" — referenced QII rankings across automotive and finance.

The Nation

National Newspaper, Jun 2026

Cited QII as the benchmark tool in coverage of True Corporation's quantum partnership, framing Thailand's national strategy.

Additional coverage in FinTech Futures, Quantum Strategy Institute, Singapore FinTech Festival, unDavos/WEF 2026. Full citations dossier available on request.

Quantum INDEX

powered by RESONANCE HorizonX

Two ways to participate.
Designed to support your goals.

INDEX DISCOVERY

$35k one-time

Full audit, benchmark & recognition.

- **Deep quantum audit** — papers, patents, team, adoption.
- **Named-peer benchmark** across all three pillars.
- **Strategic recommendations** — expert-driven actions to strengthen competitiveness.
- **Live executive presentation** — findings delivered to your leadership.
- **Quantum Innovation Leader badge** — renewed annually, for RFPs & reports.

MOST IMPACT

INDEX AMPLIFY

$55k one-time

Everything in Discovery + your story told to the market.

- **Feature story** on The Quantum Insider profiling your program.
- **Executive spotlight** interview — your lead as sector thought-leader.
- **Social amplification** — co-branded ranking assets across TQI's 60k+ briefing & 85k+ LinkedIn.
- **Newsletter feature** — your result showcased to the industry's decision-makers.
- **Index Leaders Roundtable** — a seat at the invite-only gathering of participating enterprises.

Participation is initially capped at five companies per sector, per cycle. Founding participants lock this rate for annual refreshes.

Quantum INDEX

Light lift for your team.
We do the heavy work.

WEEKS 1–2

Kickoff & data intake

One workshop + document review. Your team spends 2-4 hours total.

WEEKS 2–4

Research & analysis

Our analysts combine your input with TQI's proprietary data and open-source research.

WEEK 5

Benchmark & review

You review the draft assessment for factual accuracy before anything is published.

WEEK 6

Present & publish

Executive presentation, publication on the Index, and — for Amplify — marketing program begins.

Alex Challans

CEO, Resonance (The Quantum Insider)

Alex is the CEO and co-founder of Resonance. Resonance is the leading provider of market intelligence across deep technology verticals such as quantum, AI and space. The business serves hundreds of clients - ranging from startups to national governments - with its SaaS subscription intelligence, strategic advisory and marketing offerings. Alex was previously a Director in a UK based private equity fund, where he focused on data and tech investments.

Steve Suarez

CEO, HorizonX

Steve is the CEO of HorizonX. HorizonX is a strategic innovation consultancy that helps organizations fuel growth through quantum computing. The business serves Fortune 500 C-suites and government leaders, advising on emerging technology adoption and innovation strategy. Steve was previously Global Head of Innovation at HSBC and advisor at Bain, and he now serves as Senior Advisor to McKinsey & Company and a lecturer at MIT on quantum computing for executives.
